

Lyrics to Space Concert Songs October 2008

**Good Morning**

Good Morning to -----  
Good Morning to you  
Good Morning to -----  
And how do you do?

**Blast Off**

Come on every body (clap clap)  
Let's go to the moon (clap clap)  
Hurry hurry hurry (clap clap)  
We're leaving soon! (clap clap)  
Put your hands up  
We're gonna shout!  
We'll lift right off  
Then zoom about!

Get ready

5 – 4 – 3 – 2 – 1  
BLAST OFF!

**Mr. Sun**

Oh Mr. Sun Sun  
Mr. Golden Sun  
Please shine down on me

Oh Mr. Sun Sun  
Mr. Golden Sun  
Hiding behind a tree

We little children are asking you  
To please come out so we can play with you

So Mr. Sun Sun  
Mr. Golden Sun  
Please shine down on  
Please shine down on  
Please shine down on me

**Moon Shadow** (just focus on the chorus)

Oh, I'm being followed by a moonshadow, moonshadow, moonshadow (clap clap)  
Leapin and hoppin on a moonshadow, moonshadow, moonshadow (clap clap)

And if I ever lose my hands, lose my plough, lose my land,  
Oh if I ever lose my hands, oh if.... I wont have to work no more. (clap clap)

Chorus

And if I ever lose my eyes, if my colours all run dry,  
Yes if I ever lose my eyes, oh if.... I wont have to cry no more. (clap clap)

Chorus

And if I ever lose my mouth, all my teeth, north and south,  
Yes if I ever lose my mouth, oh if.... I wont have to talk

## **Hot Star**

Well, the Sun's a hot star  
Mercury's hot too  
Venus is the brightest planet  
And Earth is home to me and you  
Mars is the red one  
And Jupiter's most wide  
Saturn's got those icy rings  
And Uranus spins on its side  
Neptune's really windy  
And Pluto's really small

Well, you wanted to name the planets  
and now we've named them all!

## **Planets Song** (to the tune of A Tisket A Tasket)

Mercury  
Venus  
Earth and  
Mars and  
Jupiter  
Saturn and  
Uranus  
Neptune and  
Pluto

The planets  
The planets  
I just named the planets!

## **Hush Little Alien** from the book by Daniel Kirk

Hush little alien don't say a word  
Papa's gonna catch you a goonie bird

If that goonie bird flies too far,  
Papa's gonna lasso you a shooting star.

If that shooting star's too hot,  
Papa's gonna find you an astronaut.

If that astronaut should fight,  
Papa's gonna bring you a satellite.

If that satellite gets away,  
Papa's gonna take you to the Milky Way.

If that milk has got no cream,  
Papa's gonna buy you a laser beam!

If that laser makes things melt,  
Papa's gonna get you a new tool belt.

And with that tool belt on your hip,  
You're gonna build a rocketship.

And when that rocketship takes flight,  
Papa's gonna give you a kiss good night!

### **Swing on a Star** (Kids just sing the chorus)

*Would you like to swing on a star  
carry moonbeams home in a jar  
and be better off than you are  
or would you rather be a mule?*

A mule is an animal with long funny ears  
he kicks up at anything he hears  
His back is brawny but his brain is weak  
he's just plain stupid with a stubborn streak  
and by the way if you hate to go to school  
You may grow up to be a mule

*Oh would you like to swing on a star  
carry moonbeams home in a jar  
and be better off than you are  
or would you rather be a pig?*

A pig is an animal with dirt on his face  
his shoes are a terrible disgrace  
He has no manners when he eats his food  
He's fat and lazy and extremely rude  
But if you don't care a feather or a fig  
you may grow up to be a pig

*Oh would you like to swing on a star  
carry moonbeams home in a jar*

*and be better off than you are  
or would you rather be a fish?*

A fish won't do anything but swim in a brook  
he can't write his name or read a book  
to fool the people is his only thought  
and though he's slippery he still gets caught  
but if then that sort of life is what you wish  
you may grow up to be a fish

*Oh would you like to swing on a star  
carry moonbeams home in a jar  
and be better off than you are  
you could be better than you are  
you could be swinging on a star*

## **Gravity**

When I was one  
I had some fun  
And a star shone down on me (bing!)  
I hopped aboard a spaceship  
And the astronaut told me

That you go this way  
That way  
Forward  
Backward  
Cause there is no gravity

When I was two  
I tied my shoe ..... etc.
